

Pallets

Location

Throughout the city including behind The Forum, the back of the high street and at the industrial estates.

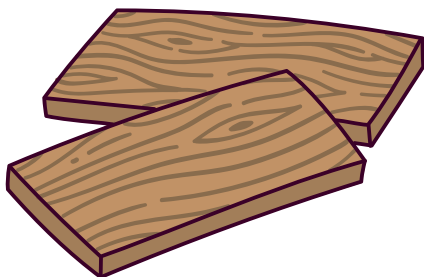

Quantity

200-500 a month across all sites.

Composition

Clean, used pallets. Mainly plain wood, sometimes blue.

UK pallet size = 120cm x 100cm. Euro pallet size = 120cm x 80cm. Occasionally pallets will be made of rigid plastic, but these are generally returnable and not found in waste.

Description

Often found in bin stores or at the back of premises, so stored outside. Mainly returnable, so when they are left they tend to be a pain for businesses and are left until there are enough to justify a collection.
